The Mysterious Camp Map

When I was learning how to catch fish instead of a fish it was a bottle.

I called my friend Ava to show her the bottle. I told her what happened. Then we opened the bottle and it had a mysterious camp map in it.

We both were so excited. First it said: find a cave behind three tall trees. What three tall trees? Ava said. I don't know I said. When we were walking we thought we saw three tall trees. We checked behind the trees. But it was a dog. The dog showed us where to go.

Thank you little dog. We said then, we moved the trees and went inside the cave. Next on the list it said: find the lake and use the boat to get across the lake. I wonder where the lake is? I said.

Then, we saw three bushes. We moved the bushes and found the lake. WOW we said. Then, jumped onto the boat. We paddled and paddled until we reached the other side. We made it we said.

Finally it said: go into the forest and find the treehouse.

That's easy said Ava. We just have to follow the trail. We followed the trail and found the treehouse. We went inside the treehouse and saw an old treasure chest with a key on top of it. We opened the chest. And... it had a bracelet inside it, with a note saying the greatest treasure is a good friend. We looked at each other and smiled with so much happiness.

It was a fun adventure, that felt like a dream. Even the next day we woke up we thought it was a dream, but we had our special bracelets and a story to tell our parents, friends back home.
