

Library use in Fiscal Year 2025–26

Over the past twelve months—from July 1, 2025, through June 30, 2026—190,958 people visited LVDL. The reasons behind those visits varied. Some came to check out materials, attend a program, use a computer, or scan documents. Others used the library as a home office where they could access Wi-Fi and use a study room. Still, others stopped by to work on the puzzle, play chess, or simply relax by the waterfall and enjoy the view.

Whatever the reason, we're happy people visited. And if you haven't stopped by lately, we'd love to see you.

**Library Services includes questions answered and Business Center copy/skan/fax use. Library Spaces includes WiFi, study rooms, public computers, and community meeting room use.*

**We enrich lives by
connecting people
with resources,
services, spaces,
and each other.**
